37. **Evaluation of eligibility/qualification Criteria:**

**The following may also be noted:**

1. Only one tender per tenderer will be accepted.
2. It may be noted that the tenders not accompanied by any one of the above documents or satisfactory explanation thereof will be liable for rejection forthwith.

Tenders will be evaluated strictly on the basis of the terms and conditions incorporated in the tender document. The Contracting Authority may include quality, price, delivery date and delivery period or period of completion etc. the tenderer(s) are only eligible, qualified for the tender only when he or they fulfill the all the criteria of the tender and provide all the needful documents asked for the tender. Document such as EMD, copy of Pan Card, copy of GST registration certificate, latest IT return, valid GST clearance certificate, experience certificate, Fssai certificate and others mentioned documents. Tenders that do not meet the required eligibility/qualification criteria prescribed will be treated as unresponsive and not considered further. Evaluation of Technical Suitability: The description, specifications, drawings and other technical terms and conditions are examined by TC in general and a technical member of the TC in particular. The tenderer(s) document should clearly state whether alternative offers/makes/models would not be considered. All important document submitted by the tenderer should be clear and self attested. The firm should be in possession of fssai certificate during the time of submitting the tender. Firms not submitting the desired certificate will not be considered during technical evaluation. The Technical committee will also evaluate and confirm that the all terms and conditions specified in the tender have been accepted without reservations by the tenderer. Evaluation of Financial Bids and Ranking of Tenders in general: If the price bid is ambiguous so that it may very well lead to two equally valid total price amounts, then the bid should be treated as unresponsive.

Unless announced beforehand explicitly in the tender documents, the quoted price should not be loaded on the basis of deviations in the commercial conditions. If it is decided to incorporate such clauses, these should be unambiguous and clear and thereafter there should be no relaxation during evaluation. Moreover, Contract shall ordinarily be awarded to the Lowest evaluated bidder whose bid has been found to be responsive and who is eligible and qualified to perform the contract satisfactorily as per terms and conditions incorporated in the corresponding bidding document. To take care of this, relevant details are to be incorporated in the bid document and the criteria adopted to assess the benefit of such features while evaluating the offers are also to be clearly stipulated in the tender enquiry document so that the tenderers are aware of it and quote accordingly. While evaluating such offers, these aspects are also to be taken into account. Such details, whenever considered necessary, should be evolved by the competent technical authority for incorporation in the tender document, so that there is no ambiguity and/or vagueness in them and first preference will be given to such firm which has the experience to the supply DRY ration to other capfs/other sister organisation which is working in Ranchi Normally, the comparison of the responsive tenders shall be on total outgo from the Procuring Entity's pocket, for the procurement to be paid to the supplier or any third party, including all elements of costs as per the terms of the proposed contract, including any taxes, duties, levies etc, freight insurance etc. Therefore it should normally be on the basis of CIF/FOR destination basis, duly delivered, commissioned, as the case may be: In the case of goods manufactured in India or goods of foreign origin already located in India, GST and other taxes and duties, which will be contractually payable (to the tenderer) on the goods are to be added; As per policies of the Government from time to time, the purchaser reserves his option to give price/purchase preferences as indicated in the tender document. If the purchase authority is not satisfied with the price offered, it will be called for negotiation. the rates of less than 10 percent of the total items are found to be the lowest, the items of that firm will be passed on to the lowest bidder in the highest number of items provided the said rates are in line with the current market and final purchase rates or in favor of the buyer. If this is not possible then negotiation will be done on the basis of the rates of the firm with the highest number of items.

38. **SALE OF MATERIAL BRANDED WITH GOVERNMENT MARK:** Materials which are asked to supply to the stores should be same brand which as asked to be supplied. All items Other than branded items should be mentioned the manufacturing date, batch number or lots number, date of expiry and Government marks.

The transit risk in this respect may be covered by the Contractor by getting the stores duly insured, if he so desires. The Insurance cover shall be obtained by the Contractor in his own name and not in the name of the Consignee. The Consignee will as soon as possible but not later than 15 days from the date of arrival of stores at destination notify the Contractor of any loss or damage to the stores that may have occurred during transit. If the Contractor has not agreed to above standard clause the advance payment for the supplies shall be made against clear Railway Receipt only.
